RE: Impending FP 7/C Requirements Regarding Addition of Social Security Numbers -- Effective Date Delayed

DATE: February 14, 2008

---

Representatives from the DCLTA met earlier this week with representatives from the Office of Tax and Revenue (OTR) and the Recorder of Deeds (ROD) to discuss the "Recorder of Deeds Alert" previously issued which required the Social Security Number or the Federal Employer Identification Number for each party to the document be included on the FP 7/C Form.

**We received information that the March 3, 2008 effective date for this requirement will be further delayed.** We hope to have something in writing from OTR or ROD by next week and will keep you updated.

We will continue in our efforts to inform them of the challenges presented to our industry with the implementation of these newly proposed requirements to the FP 7/C Form.

I wish to thank those members who provided comments which were helpful in presenting our concerns to OTR. We invite all members to continually provide us with their thoughts and comments on any matter which affects our industry.
